

NEW FORD **EVEREST**

Ready for Everyday or the Epic

Engineered for extraordinary inside and out, Everest is built to take on even the most epic adventures. Purpose-built capability is designed to help you tackle tough terrain and unexpected obstacles with mastery. For when you are back on-road, a comfortable ride and premium interior mean you'll travel first class every day.

2.0L Bi-Turbo Diesel Engine
POWER **213 PS** | TORQUE **500 Nm**

2.0L Turbo Diesel Engine
POWER **180 PS** | TORQUE **420 Nm**

2.2L TDCi Diesel Engine
POWER **160 PS** | TORQUE **285 Nm**

2.0L Turbo & 2.0L Bi-Turbo Diesel Engines. Our new generation 2.0L Turbo and Bi-Turbo diesel engines, mated with a 10-speed automatic transmission, deliver the effortless power you need to conquer any terrain.

10-Speed Auto Transmission. Ford's latest transmission technology offers not only improved fuel efficiency but also better acceleration and more accurate, quicker gear changes.

2.2L TDCi Diesel Engine. Everest's upgraded 4-cylinder 2.2L TDCi diesel engine, mated with a 6-speed automatic transmission, pumps out the power you need to conquer any task.

Advanced Driving Assist Technology

Adaptive Cruise Control

Reads traffic and can adjust your speed automatically. When traffic slows down, Everest slows down. When traffic clears, Everest returns to your pre-set speed.

Lane Keeping System

If your indicator is not turned on and you start drifting from the center of your lane, the Lane Departure Warning alerts you by vibrating your steering wheel. If you continue to drift, Lane Keeping Aid steers you back on track.

Active Park Assist

Enjoy hassle-free parallel parking. Everest helps find the right size parking space and automatically steers itself in for a perfect park, with your hands 'off' the steering wheel. All you have to do is control the gears, accelerator and brake.

Autonomous Emergency Braking

First-in-class feature that detects both pedestrians and vehicles and alerts you with an audible and visual warning. If you fail to react, it can automatically apply the brakes.

4WD Terrain Management System

Just turn a dial and Everest's Terrain Management System ensures maximum traction and stability, enabling you to stay in control whether you are driving on sand, snow, mud, grass, rock or road.

Active Noise Cancellation

Highly sensitive microphones cancel out engine noise using opposing sound waves, ensuring you always have a peaceful drive.

Seven Airbags and Ultra-High Strength Steel

Provides a network of protection with front seat driver and passenger airbags and side-mounted airbags for those in the front and back.

Hands-Free Liftgate

Make your life easier when your hands are full or when the liftgate is wet and dirty. Just trigger a sensor with your leg and it will open and close automatically.

Keyless Entry & Push-Button Start

Set off on your journey without having to take your key out of your pocket.

Panoramic Moonroof

Because it comprises nearly 50% of the roof space, you can open up your world and experience life under the stars at the touch of a button.

Auto High Beam Control

Actively identifies and classifies light sources like traffic and street lights and automatically activates the high beams as needed.

SYNC™3

Stay connected whatever your adventure with SYNC™3¹. Seamlessly connect your phone to the 8-inch touchscreen via programs like Applink®², Apple CarPlay³ or Android Auto⁴. More intuitive, more responsive and more capable.

[1] Not all features in SYNC™3 are available with all mobile phones, for compatibility please see <https://www.ford.com.ph/engineering/sync/>. [2] Ford Applink® is only available on select models and compatible with selected smartphone platforms. [3] Apple CarPlay is a trademark of Apple Inc. Apple CarPlay requires phone with compatible version of Apple iOS, active data service, and connection cable (sold separately). SYNC does not control Apple CarPlay while in use. Apple is solely responsible for their functionality. Message and data rates may apply iPhone, Siri and Apple CarPlay are trademarks of Apple Inc. [4] Android Auto requires phone with compatible version of Android Auto and active data service. Android Auto requires phone with compatible version of Android Auto and active data service. Android Auto and Google Maps are trademarks of Google Inc.

FORD PROTECT

Scheduled Service Plan (SSP)

The Ford Scheduled Service Plan (SSP) is a pre-paid maintenance plan that covers the Ford vehicle for up to a 5-year period from the date of purchase. It shields the owner from future price increases on maintenance parts and labor.

SSP is available in the following plans:
 24 months / 20,000 km or 2 maintenance visits
 36 months / 30,000 km or 3 maintenance visits
 60 months / 50,000 km or 5 maintenance visits

Roadside Assistance

All Ford vehicles come with standard 3-year Roadside Assistance.

Premium Extended Warranty

The Ford Premium Extended Warranty is the most comprehensive Service Plan Protection fully backed by Ford Group Philippines. It covers the parts and labor to repair thousands of key components - engine, transmission, steering, electrical and more - for up to 5 years or 150,000 kilometers. In total that is 5 long years of vehicle warranty and worry-free ownership.
