NISSAN INTELLIGENT MOBILITY

Nissan Intelligent Mobility guides everything we do. We're using new technologies to transform cars from mere driving machines into partners. Together, the journey is more confident, connected, and exciting. Whether it's cars that share the task of driving with you, or highways that charge your EV as you go along, it's all in the very near future. And it's a future already taking shape in the Nissan you drive today.

Nissan. Innovation that excites.

NISSAN INTELLIGENT MOBILITY

A BOLDER RIDE THROUGH LIFE

Nissan Intelligent Mobility empowers you with tomorrow's technology for a more confident and exciting drive. The suite of features aids you in seeing and sensing any potential obstacles around you. So when you're out on the road, you can count on your Terra to alert you by providing enhanced vision and safety when changing lanes. All of these give you the confidence and the freedom to embrace the joy of being behind the wheel – the way driving was always meant to be.

BLIND SPOT WARNING Helps you keep an eye on blind spot areas. It alerts you when it detects vehicles hidden from sight, so you have more confidence whenever you change lanes.

LANE DEPARTURE WARNING Enhances your safety by making sure you only change lanes when you mean to. It gives you a visual and an audible alert when it detects an unintentional lane departure.

HILL START ASSIST Helps you in managing steep inclines and hill ascents, preventing the vehicle from rolling backwards. It holds pressure on the brake for a few seconds, providing enough time to switch from the brake pedal to the accelerator.

DRIVER AWARENESS TECHNOLOGIES

GET A BETTER PICTURE OF YOUR SURROUNDINGS

Whether pulling into a tight parking spot or driving at slow speeds over rough terrain, advanced driver awareness technologies make it easy to check your surroundings. The Intelligent Around View Monitor gives you a clear 360° view, allowing you to park perfectly with ease and avoid obstacles around you, while the Rear Parking Sensors lend a helping hand when backing up.

INTELLIGENT AROUND VIEW MONITOR

PARKING Getting in and out of tight parking spots has never been easier. Using four cameras, the Intelligent Around View Monitor gives you a 360° bird's eye view of your vehicle, with split-screen close-ups of the front, rear, and curbside views. The Moving Object Detection gives you an on-screen visual when it detects moving objects, helping you avoid any parking hazards.

OFF-ROAD When off-road, the Intelligent Around View Monitor becomes your personal spotter. At slow speeds, it provides a clear view of the surrounding terrain, so you can avoid any obstacles, be it small logs or large rocks.

A FULL CABIN

Intelligent Rear View Mirror (OFF)

With the whole family in the ride, maintaining a clear rear view can be a problem. The Intelligent Rear View Mirror solves this by giving you an unobstructed view no matter what's going on behind you.

AND A REAR VIEW THAT IS STILL CLEAR

Intelligent Rear View Mirror (ON)

Camera Mode ON

INTELLIGENT REAR VIEW MIRROR

When you need a clearer rear view, go from mirror to monitor with just a flip of a switch. When turned on, a camera at the rear hatch expands your rear field of vision, helping you see around obstructions for a completely unimpeded view.

FULLY-BOXED LADDER FRAME

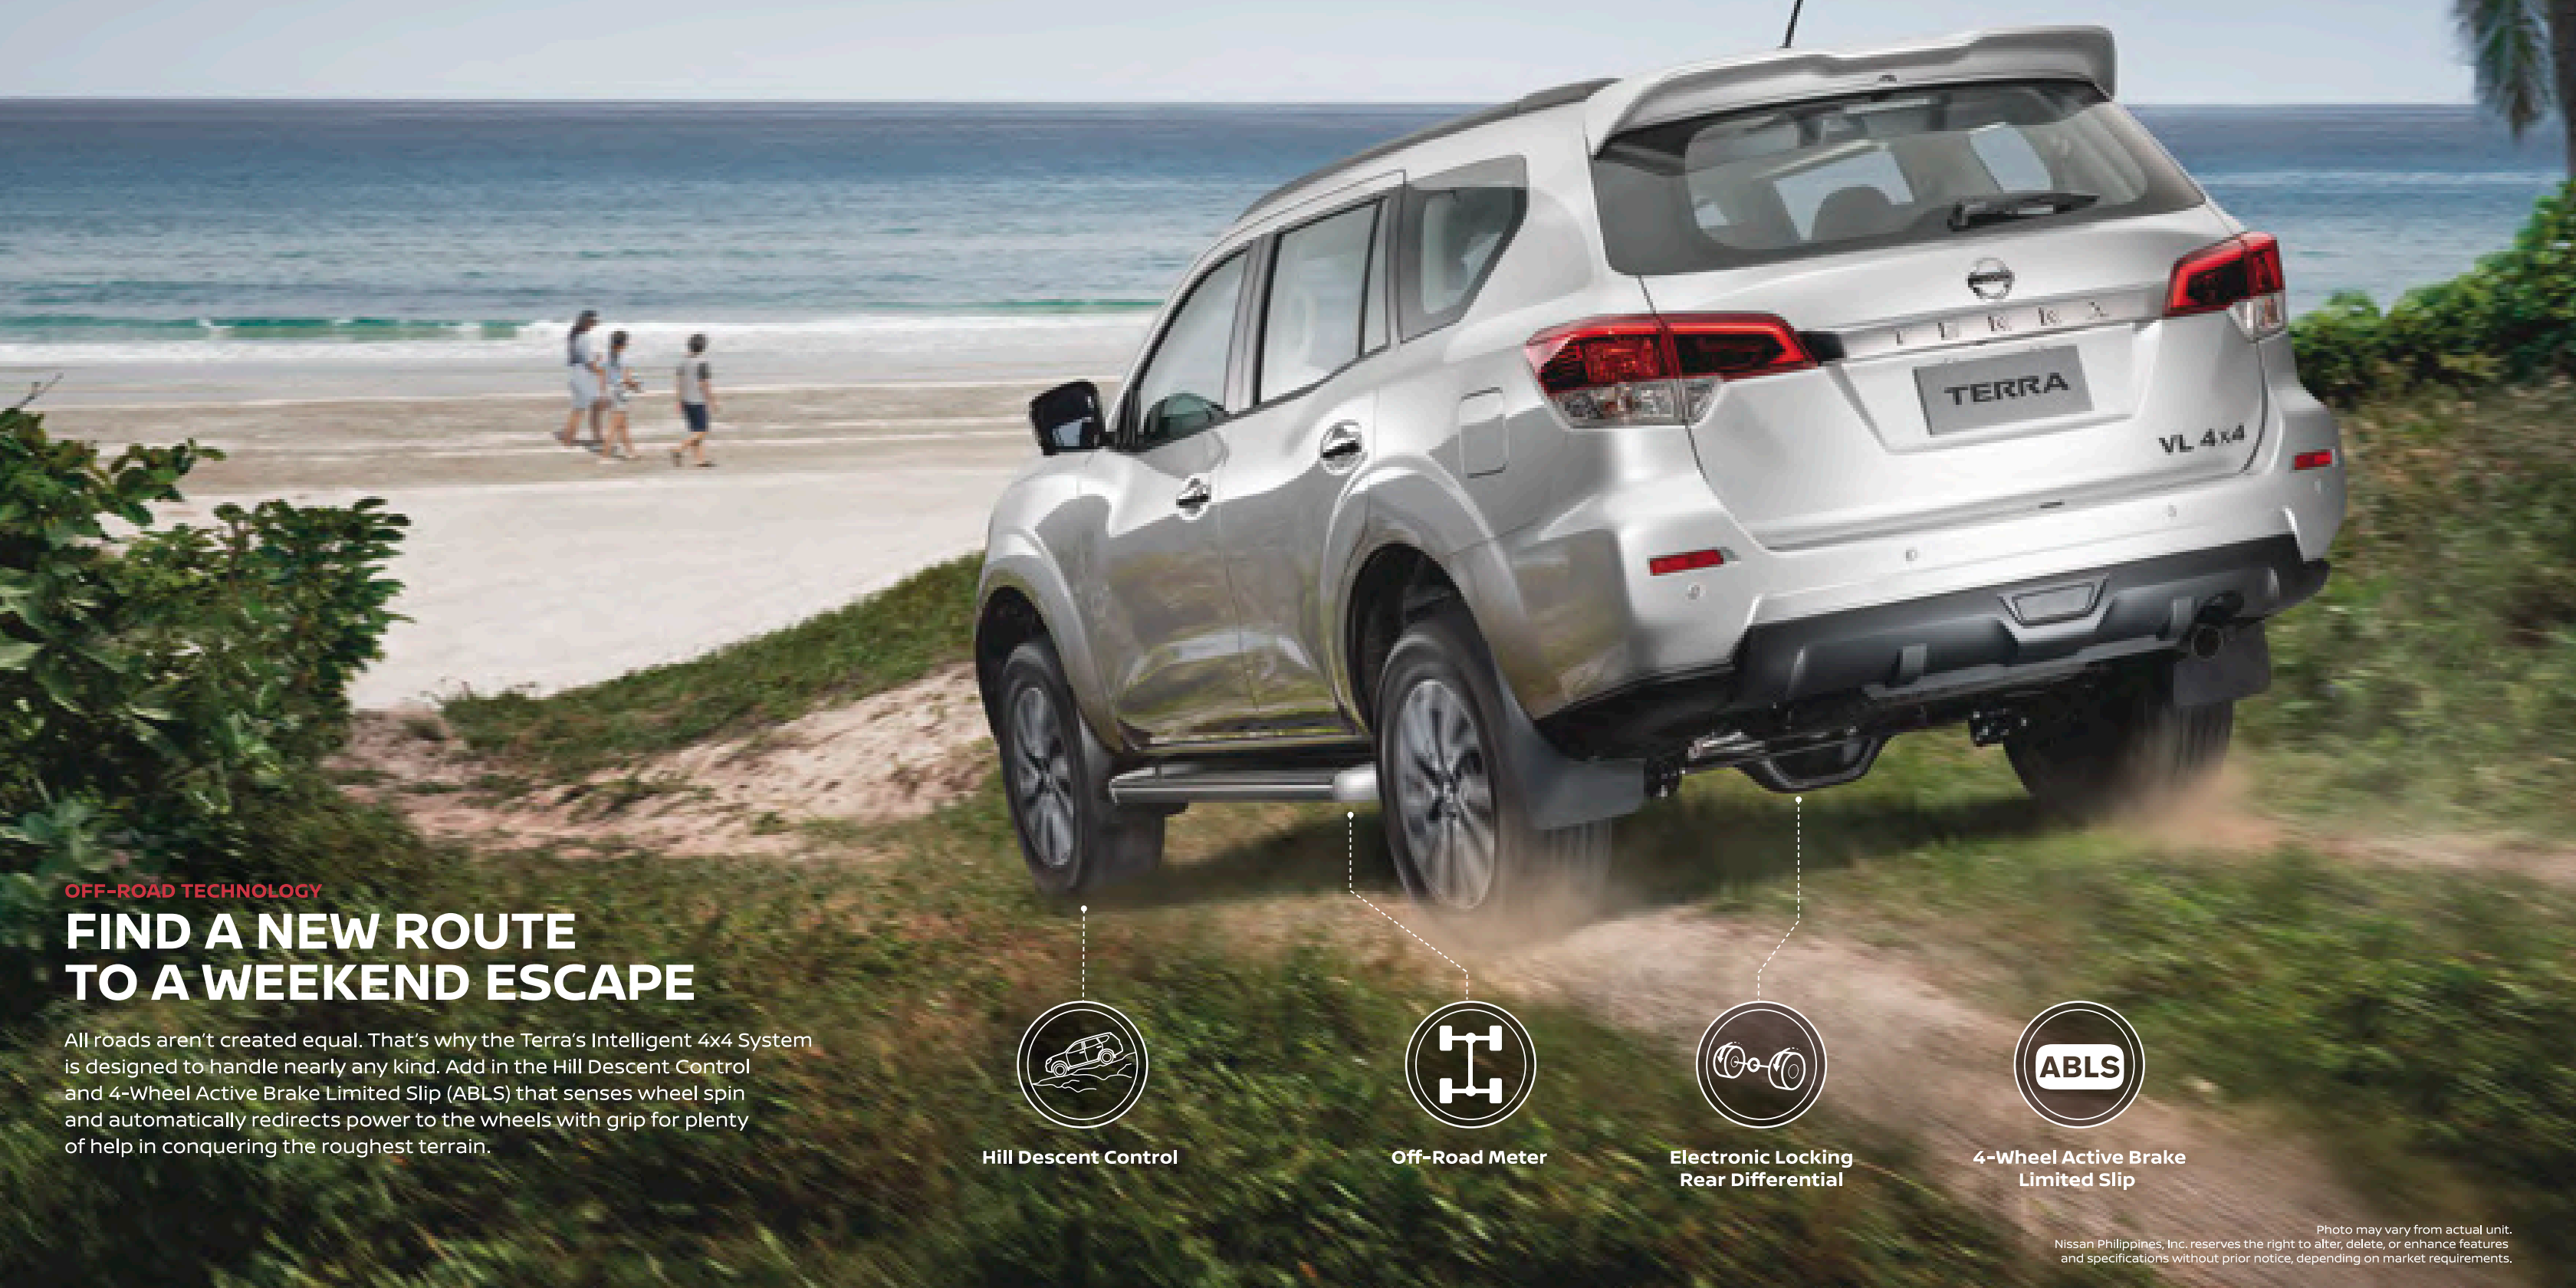

BUILT ON A HERITAGE OF STRENGTH

We have a history of building vehicles that can go just about anywhere. What's behind it all? A full-length, fully-boxed ladder frame. Built with it, the Terra becomes one of the toughest SUVs on the road. Exceptional angles of approach and departure plus an impressive ground clearance allow it to handle some seriously rough terrain. Whether on or off-road, you'll experience a smooth and comfortable ride, thanks to the double-wishbone front suspension and the multi-link rear suspension.

Unlike other three-sided frames, a fully-boxed ladder frame doesn't twist over uneven terrain. This means more strength, and ultimately, more capability.

OFF-ROAD TECHNOLOGY

FIND A NEW ROUTE TO A WEEKEND ESCAPE

All roads aren't created equal. That's why the Terra's Intelligent 4x4 System is designed to handle nearly any kind. Add in the Hill Descent Control and 4-Wheel Active Brake Limited Slip (ABLS) that senses wheel spin and automatically redirects power to the wheels with grip for plenty of help in conquering the roughest terrain.

UNRELENTING POWER

The efficient common rail turbo engine, paired with either a 7-speed automatic or a 6-speed manual transmission, delivers impressive horsepower and torque that ensures an exhilarating drive of speed and acceleration.

2.5-L

COMMON RAIL TURBO DIESEL

ENGINE DISPLACEMENT	2,488 CC
FUEL TYPE	DIESEL
POWER	190 ps @ 3,600 RPM
TORQUE	450 Nm @ 2,000 RPM

Choose between 2WD Rear Wheel Drive and 4WD High Gear to go from maximum fuel efficiency on the highway to serious adverse weather capability on command.

TWIST

AND TACKLE

With just a turn of the dial, switch to 4WD Low Gear when the conditions get really rough. Count on this capable system to get you to your destination.

A WORLD OF LUXURY THAT REVOLVES AROUND YOU

Inside the Terra, impressive technologies await you. From steering wheel controls that allow you to adjust the cruise control, audio system, and Bluetooth hands-free calling, to the Advanced Drive-Assist Display, every journey becomes more enjoyable. Throw in smartphone integration and you get a more connected drive for you and your passengers.

ADVANCED DRIVE-ASSIST DISPLAY

Your Terra lets you be on top of everything with the available Advanced Drive-Assist Display, providing you with information on your tire pressure, the Intelligent 4x4 System, or fuel economy with just a touch of a button.

PREMIUM IN EVERY WAY

No matter what seat you take, it's clear that the Terra is all about the finer things. With leather-appointed seats, ambient lighting, spacious seating capacity, and Zero Gravity front seats, every moment spent with family is in luxury.

DESIGNED WITH SOMETHING FOR EVERYONE

It's hard to please everyone, but with the Terra's smartly designed interior, you actually can. The Dual Zone Automatic Climate Control keeps those up-front happy, while the rear seat air-conditioning with personal vents provide comfort for the rest of the crew. There's even an 11" Flip-Down Rear Monitor (with HDMI input) that's perfect for those memorable road trips. With plenty of convenience features and an abundance of storage, the Terra is the right companion for any trip.

Tip-Up Easy Entry Second Row Seats with 1-Touch Remote Fold and Tumble Seats

With a flip of a lever, the second row effortlessly folds and tumbles in one motion. It can even be remotely done from the driver's seat with a press of a button.

Imagine moving through life with greater confidence, excitement, and connection to the world around you. Nissan Intelligent Mobility is shifting the future of driving, and it's already a reality today.

FEEL MORE CONFIDENT

Intelligent Driving It starts now, with technology that helps you see more, sense more, and take action to avoid trouble. Soon, Nissan ProPILOT will take the next step: navigating through heavy traffic and even finding parking. We're already testing autonomous driving on public roads, which means this revolutionary experience is within reach.

FEEL MORE EXCITED

Intelligent Power What if you could have sustainable transportation and a thrilling drive at the same time? The emission-free instant acceleration of an electric vehicle makes it possible. With a commitment to electrify and explore alternative energy sources, we've become an industry leader of bringing clean, quiet power to people worldwide.

FEEL MORE CONNECTED

Intelligent Integration Your Nissan can already connect seamlessly with your smartphone. The next step is smart vehicles that connect with each other to improve safety and traffic flow. By developing mobile sharing services, we're redefining what it means to own a car.
