# ALWAYS A STANDOUT ON ANY ROAD

When you've got a cross between a sports car and an SUV, you know you're going to stand out. That's what the Nissan Juke is all about—a crossover car with the ability to command pure attention. Designed with an impressive exterior and powerful technologies, every ride becomes a pulse-raising drive. The Nissan Juke is truly one of the most stunning vehicles you'll ever see on the road.

## BE THE CENTER OF ATTENTION

Designed with muscular lines, a captivating hood and aggressive taillights, the Nissan Juke features an exterior unlike any you've ever seen. Get behind the wheel and you'll discover sport-bolstered seats, circular gauges with hood cover and a pulse-raising center console inspired by the radical lines of an Italian sports bike. It's Nissan's most captivating vehicle yet.

## EXPERIENCE TOTAL DRIVING CONVENIENCE

The Nissan Juke's stunning looks can only be matched by its powerful technologies. It's designed with a centralized interface with a reverse camera and the I-CON System that lets you control driving modes, giving you the convenience you need on the road.

## CROSS OVER TO THE WILD SIDE

The Nissan Juke is engineered to deliver pure power and efficiency. It's equipped with a powerful 1.6L engine with the world's first dual injection system, the new generation X-Tronic Continuously Variable Transmission, speed sensing electric power steering and automatic cruise control. With the Nissan Juke, you get all the power you need while saving on gas.

## NISSAN DYNAMIC CONTROL SYSTEM

# CHANGE YOUR MOOD ON THE FLY

The Nissan Juke comes with the world’s first I-CON System that gives you the freedom to easily switch from various driving modes, from a more fuel-efficient ride to a truly thrilling drive. It also allows you to adjust interior temperature all in one single panel, allowing your passengers to enjoy the journey as much as you.
